

A Smart Alternative for Buying Cisco Products

Join the Circular Economy with Cisco Refresh

Good for Your Business, Good for the Environment

Cisco Refresh (certified remanufactured equipment) is a smart take on technology purchasing that sources products from Cisco's reverse logistics.

You'll get the quality products you expect from us with a fully sustainable low carbon footprint.

It's just one way we're committed to minimizing our environmental impact and helping you do the same.

It's Smart to Shop Cisco Refresh

Find Peace of Mind

You'll enjoy the same Cisco quality, value, performance, certified protection and support as you would for new products.

Maximize Budget and Reduce Cost of Ownership

Competitive pricing starting at 65% off original equipment prices, plus no hidden costs.

Increase Selection and Lower Risk

Choose from our extensive inventory of over 4,000 different new and end-of-sale products, remanufactured with the same Cisco warranty and Cisco SMARTnet support options as equivalent new products.

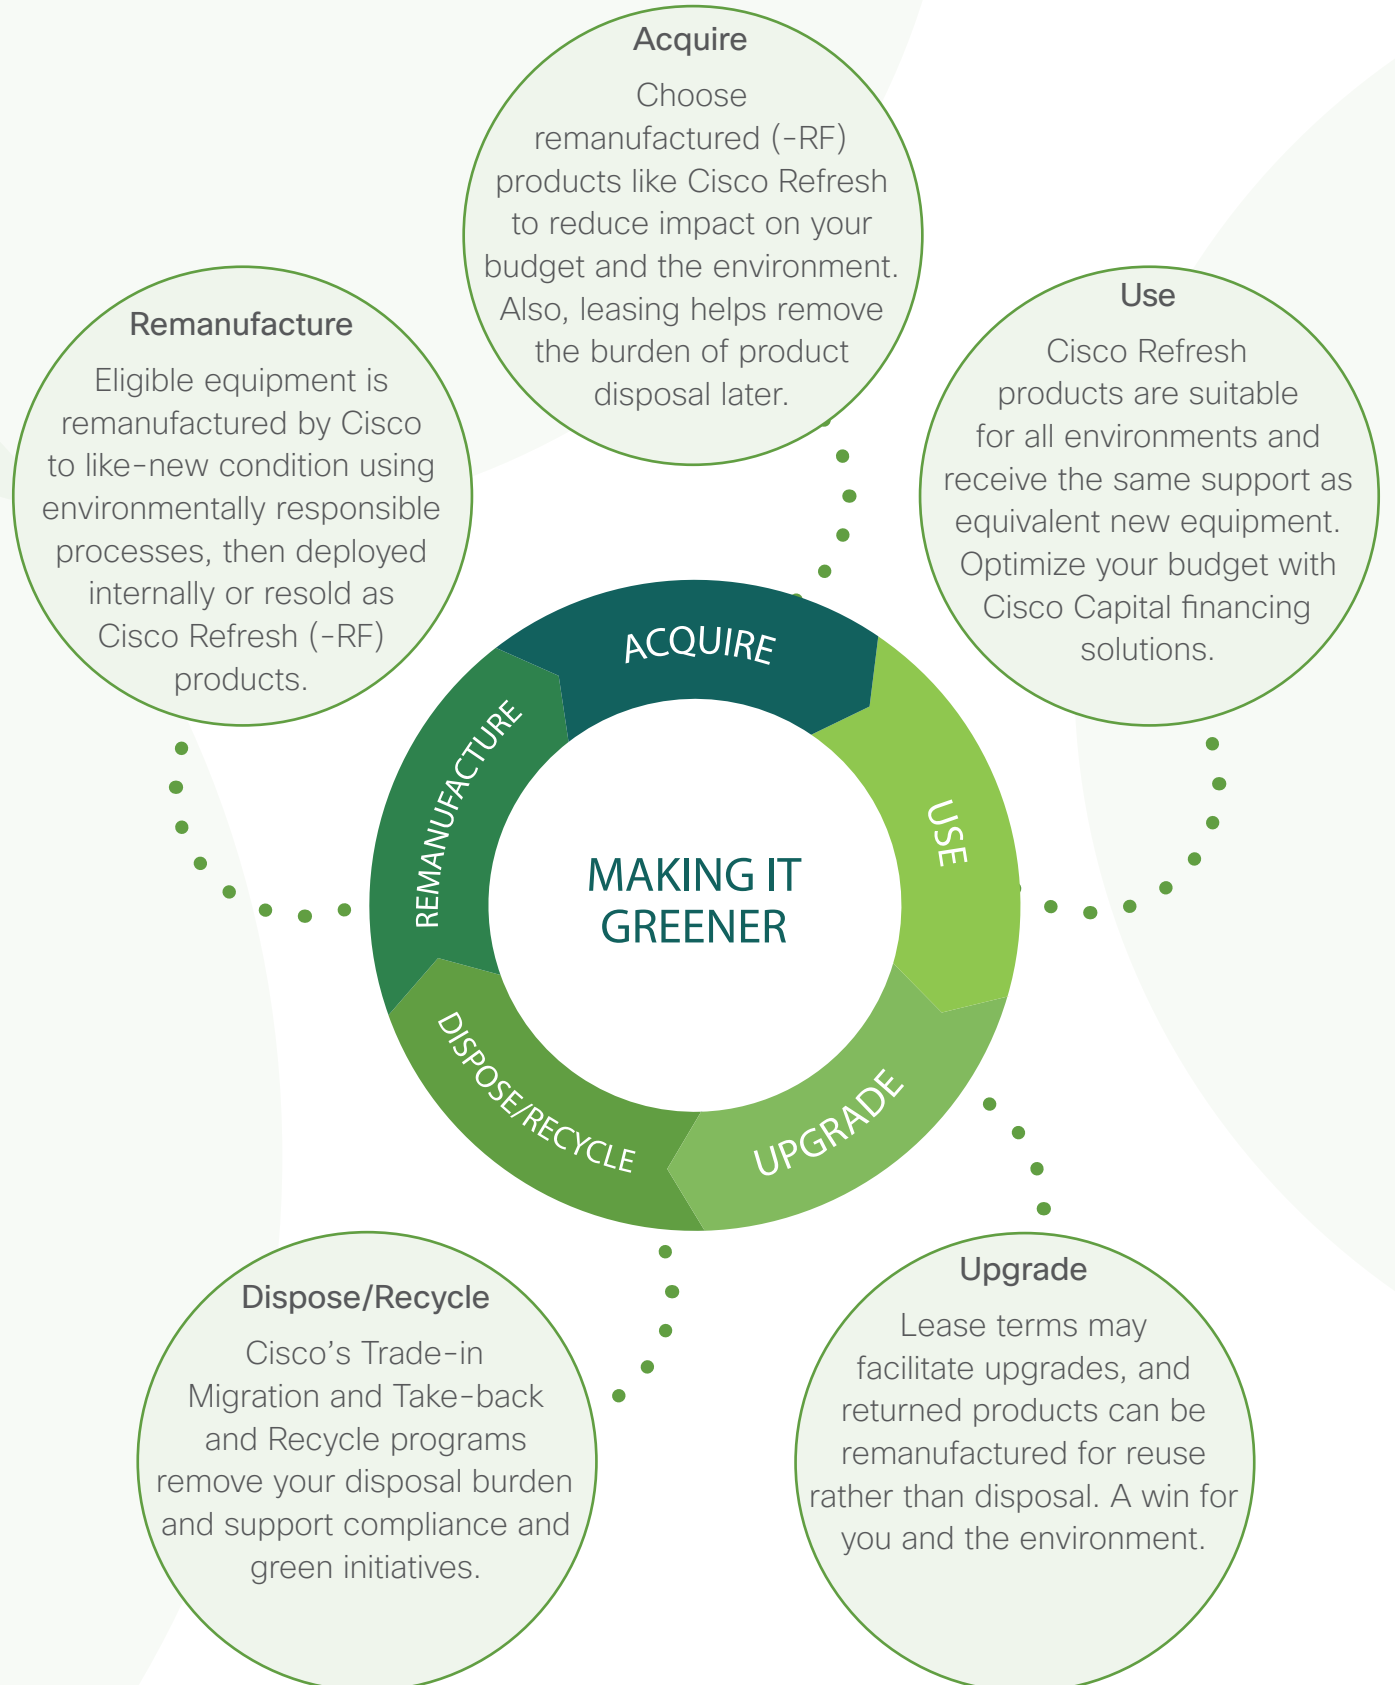

Go with Who You Know

Products are available through all Cisco Partners and Distributors. Financing through Cisco Capital helps you get the biggest and best network solution with a limited technology budget.

What Goes Around Comes Around

The circular economy is an alternative approach to doing business that keeps resources in use for as long as possible and maximizes their value. Once their service life ends, products and materials are recovered, regenerated and resold. Here's how it works:

Refresh Your Technology and Your Green Initiative
