

AT&T

- Helps businesses more easily launch, manage and monetize IoT services
- Thousands of customers managing millions of devices globally with AT&T Control Center from Cisco Jasper
- Quicker and simpler for developers to connect, analyze data, and build end-to-end IoT solutions

“I’m most excited about the impact this is making to businesses and governments not just in the United States but around the globe. There’s never been a better time to be in the Internet of Things industry.”

Mike Triano
Vice President Industrial IoT Solutions
AT&T
