Cisco Technical Education

Purchasing Cisco Technical Education

Access to Cisco Technical Education is ordered in the form of student or “user” license. A customer can order a technology-specific passport for one, or more, students or a license to access all content in Cisco Technical Education. Each license entitles a student to 1 year (12 months) of access to the portal.

Cisco Technical Education can be purchased with three different methods:

1. Placing an order in Cisco Service Contract Center (SCC)
2. Placing an order in Cisco Commerce Workspace
3. Redeeming Cisco Learning Credits

You can specify the package and quantity of user licenses by entering the corresponding product ID number and service level, which are unique to Cisco Technical Education. For a complete list of SKUs and product ID numbers, see the following tables.

Pricing for Cisco Technical Education

As with many Cisco products and services, standard uplifts or regional pricing variations apply to Cisco Technical Education. Following is a list of the pricing for each theater along with the product ID numbers for each packaged offered.

Cisco Modeling Labs

Cisco Modeling Labs Corporate Edition software provides a platform for virtual network topology design and simulation using Cisco IOS® Software versions compiled to run on virtual machines. End users, such as network engineers, architects, and operations staff who design, test, and maintain network infrastructures, can perform network topology design for network changes, what-if analysis, and testing by using Cisco Modeling Labs to create virtual network test beds in minutes.

Base Software Subscription

With the base software package, customers can start using the software with the capacity of simulating up to 15 virtual Cisco nodes. The base software subscription is priced for the value of 10 simulated nodes, but includes 5 bonus nodes to encourage customers to start using the product.

Tables 1 and 2 provide the product IDs and pricing for the base software and subscriptions.

Table 1. Cisco Modeling Labs Corporate Edition—Base Software

Product Number	Description	List Price (\$US)
R-CML-CE-K9=	CML CE SW v1.0 subscription with 15 nodes	Default to a 1-year subscription price

Table 2. Subscription Selection Under the Base Software

Subscription SKU	Description	List Price (\$US)
CML-CE-1Y	CML CE SW v1.0, 1 Yr	US\$13,200
CML-CE-2Y	CML CE SW v1.0, 2 Yr	US\$23,760
CML-CE-3Y	CML CE SW v1.0, 3 Yr	US\$31,680

The default term for these subscriptions is 1 year. In the ordering process, you can edit the subscriptions to choose from 2-year or 3-year durations. The 2-year subscription has a 10 percent built-in discount while the 3-year subscription has a 20 percent built-in discount.

Expansion Packs

Customers can order any combination or quantity of bundles and obtain license keys to install on the Cisco Modeling Labs server to expand the limit of how many nodes can be simulated in that server. There are product IDs for additional simulation capacity for 10 nodes, 50 nodes, and 100 nodes. The additional capacity for 50 nodes has a 5 percent built-in discount in the list price, while the one for 100 nodes has a 10 percent discount in the list price.

The default term for these subscriptions is 1 year. In the ordering process, you can edit the subscriptions to choose from 2-year or 3-year durations. The 2-year subscription has a 10 percent built-in discount while the 3-year subscription has a 20 percent built-in discount. Tables 3 through 8 list the product number and pricing for each expansion subscription.
